Course Transfer Database – an application of CEPI MiSchool Data.  
If attendees want to create and populate a transfer database for their MI School data at the meeting it would be most efficient if they download their MI School course files and the MS Access database shells beforehand and bring their laptop or pad with MS Access 2010 or later (preferably 2013).  
The MS Access database shells are on the MCCCARE forum under Meetings and Agendas/ January 22, 2014 MCCCARE meeting - Transfer DB files. The databases are compressed as zip files.
